A Number of prey
Spearman ρ = +0.75, p < 0.001
number of prey
B Effective number of prey
Spearman ρ = +0.69, p < 0.001
effective number of prey
C Number of predators
Spearman ρ = −0.65, p < 0.001
number of predators
trophic level
D Total degree
Spearman ρ = −0.07, p = 0.67
total degree
trophic level
invertebrates & plankton
fishes
marine mammals, birds, turtles
